BioAgilytix

Company Overview

Evolving the Model for Partnership in Bioanalysis to Produce Premium Scientific Results

Led by thought leaders and industry experts in drug development, BioAgilytix offers industry leading services and solutions designed to support even the most complex bioanalytical needs.

With advanced laboratories in Durham, Boston, San Diego, Hamburg, Germany, and Melbourne and Brisbane, Australia, we can support all global studies through every phase of development. We are committed to working scientist-to-scientist to deliver integrated bioanalytical solutions, helping your team navigate increasingly complex scientific and regulatory demands.

Services

Our expert services span from discovery to post-market surveillance support for:

- Biomarkers
- Immunogenicity/Anti-Drug Antibodies (ADA)/ Neutralizing Antibody Assays (NAb)
- Pharmacokinetics (PK)
- Cell-Based Assays/Potency Assays

Solutions

Our scientists are helping customers pursue the opportunities of compelling therapeutic strategies, including:

- Gene Therapy
- Cell Therapy
- Biosimilars
- Antibody-Drug Conjugates (ADCs)
- Immuno-oncology

Quality

Projects can be designed to incorporate your required regulatory compliance, including:

- Good Laboratory Practice (GLP)
- Good Clinical Practice (GCP)
- Good Manufacturing Practice (GMP)
- Clinical Laboratory Improvement Amendments (CLIA)

Platforms

Any platform in our world-class bioanalytical platform suite can be tailored to your assay demands, including:

- ELISA
- MSD-ECL
- qPCR
- ddPCR
- HPLC
- Gyrolab
- Luminex
- Biacore
- ImmunoCAP
- LI-COR
- Flow Cytometry
- LC/MS
- ELISpot
- ProteinSimple Ella
- Quanterix

Best-in-Class
Services for Bioanalysis

BioAgilytix is committed to upholding premium scientific services and quality standards, enabling us to excel in some of the most demanding areas of bioanalysis where extensive, expert-level skill is required.

Our commitment to solving problems through partnership leads us to pair our advanced scientific expertise and extensive technical capabilities with dedicated collaborative project management processes to produce timely, high quality results.

Expert Quality with On-Time Delivery

Bioanalysis projects are inherently complex. We provide quality science, quality data, and a quality partnership to ensure accurate results that are right the first time, every time.

Scientific Expertise Driving Superior Results

Our veteran scientists are key to the quality of work that BioAgilytix produces. Each member of the team is dedicated to being a true partner in your bioanalytical projects, helping you problem-solve through every phase of drug development.

Our team possesses deep expertise in a wide variety of current bioanalytical solutions and services including biomarkers, cell-based assays, immunogenicity, and PK. Our scientists have contributed to more than 2,500 publications and are committed to staying on the pulse of the latest scientific and regulatory developments in the biotech and pharma industries.

Between our teams in the USA, Europe and Australia, we are able to support global studies for all phases of drug development.

Collaborative Partnership Complements Your Expertise

We are committed to actively anticipating your bioanalytical challenges, recommending solutions, and identifying every possible opportunity to compress your timelines-helping to drive successful results.

- Scientific team with extensive **post-schooling bench experience**
- Led by **Ph.D. and Master's-level scientists**
- **Supported 33%+ of biologics** approved by the FDA in 2018-2020
- **Our team is our greatest asset. We take great pride in having an impressive employee retention rate. Our scientists are likely to stay with every client from project inception to completion.**
- **Ranked #1 by our customers** in quality and customer service*

*Based on an independent customer satisfaction survey

Discuss Your Program with Our Scientists Today

Let's talk scientist-to-scientist about the bioanalytical needs of your drug development programs.

BioAgilytix

USA Headquarters
2300 Englert Drive, Durham, NC 27713
919-381-6097 / Fax 919-381-6099

Boston Laboratory
1320 Soldiers Field Road, Boston, MA 02135
617-456-0700 / Fax 617-456-0701

San Diego Laboratory
39050 Camino Santa Fe, San Diego, CA 92121
858-652-4600 / Fax 617-456-0701

Melbourne Laboratory
85 Commercial Road Melbourne, VIC, 3004
Australia

Brisbane Laboratory
37 Kent St Woolloongabba, QLD, 4102
Australia
