

## General Overview

# Setting the Global Standard for **Scientific Excellence in Large Molecule Bioanalysis**

*Led by pioneers and experts in large molecule drug development, BioAgilytix and our European subsidiary, IPM Biotech, offer a breadth of best-in-class services to support even the most complex large molecule bioanalytical needs.*

With advanced laboratory facilities in both the U.S. and Europe, we are able to support all phases of large molecule global studies, from discovery to Phase IV trials. We work scientist-to-scientist to deliver integrated bioanalytical solutions—helping your team navigate scientific and regulatory demands through every stage of development.

### **Services**

Our expert services span from discovery to post-market surveillance, and include:

- ✓ Pharmacokinetics (PK)
- ✓ Immunogenicity / Antidrug Antibodies (ADA) / Neutralizing Antibody Assays (NAb)
- ✓ Biomarkers
- ✓ Cell-Based Assays (CBA) / Potency Assays

### **Platforms**

Any platform in our extensive suite can be tailored to your assay demands, including:

- ✓ ELISA
- ✓ MSD-ECL
- ✓ Gyrolab xP
- ✓ Bio-Plex Luminex
- ✓ Biacore
- ✓ ImmunoCAP
- ✓ Randox RX Daytona
- ✓ ProteinSimple
- ✓ LI-COR Odyssey
- ✓ Flow Cytometry (FACSCalibur)
- ✓ Cell Imaging
- ✓ LightCycler

### **Quality**

Projects can be designed to incorporate your required regulatory compliance, including:

- ✓ GLP
- ✓ GMP
- ✓ GCP
- ✓ GCLP

# Best-in-Class Services for Large Molecule Bioanalysis

*BioAgilytix and IPM Biotech are known for upholding a rigor of science, service, and quality that enables us to deliver premier, compliant large molecule bioanalytical services on time.*

Our commitment is to solving problems through partnership, pairing our unique scientific expertise and technical capabilities with proven, collaborative project management processes for timely, high-quality results.

## Expert Quality with On-Time Delivery

Quality science, quality data, and a quality partnership—it's how we ensure your large molecule bioanalytical needs are solved with accuracy, high performance, and timely results.

## A Team Pioneering Large Molecule Drug Development

BioAgilytix's veteran scientists, who have been working with some of the world's largest and well-respected pharmaceutical companies and CROs for decades, have developed world-class capabilities in biomarkers, cell-based assays, immunogenicity, and PK.

IPM Biotech's team is a pioneer and leader in immunological assays, and their 20+ years of experience in assay development and validation work for immunogenicity, PK, and PD perfectly complements BioAgilytix's premier large molecule bioanalytical services.

Together we are able to support global studies for any type of large molecule need.

## Collaboration to Complement Your Expertise

We are committed to actively anticipating your large molecule bioanalytical challenges, recommending solutions, and identifying every possible opportunity to compress your timelines – helping to drive successful results.

Scientific team averaging **15+ years of bench experience**

Comprised of **50% Ph.D. and Masters-level scientists**

Partner to **21 of the top 25 global pharma and biotech companies**

Team that has **authored 1,000+ peer-reviewed publications**

Supported **first biosimilar EPO** launch in Europe and submission in U.S.

**Ranked #1 by our customers** in quality and customer service\*

*\*Based on an independent customer satisfaction survey*

## Discuss Your Project with Our Scientists Today.

Let's talk scientist-to-scientist about your large molecule bioanalytical needs.
