

Scientific Focus: **COSMETICS**

Progress your dermatological testing success with **robust bioanalysis of cosmetic activity, performed by experts in the scientific and regulatory complexities of your trials.**

BioAgilytix is an industry leader in bioanalytical services for the cosmetics industry. Over half of our scientific staff have PhDs/ Masters degrees and boast 15+ years of experience performing cell-based assays. Our team brings the **highly specialized assay expertise, veteran insights, and innovative technology** needed to advance your cosmetic trials quickly and effectively through development. Don't let your complex but promising cosmetic candidates age on the shelf.

Innovate faster with safer, more effective large molecule therapeutics developed through robust assay methods to address even your most challenging requirements.

COSMETICS EXPERTISE

- ✓ Biomarkers
- ✓ Cell-Based Assays (Bioassays)
- ✓ Dermatological Testing
- ✓ Cosmetic Activity Assays
- ✓ In vitro Allergen Testing
- ✓ Anti-Aging
- ✓ Collagen Testing
- ✓ Enzymatic Analysis

Did You Know?

BioAgilytix has developed an extensive menu of **over 100 validated biomarkers.**

Collaborative, Consultative and Comprehensive Bioanalytical Support.

Gain the scientific and regulatory expertise to progress your large molecule therapeutics quickly and confidently through the development pipeline.

EXPERT SUPPORT FOR EVERY PHASE.

From discovery through Phases I, II, III and IV, BioAgilytix offers comprehensive bioanalytical support for every stage of large molecule drug development – providing expert guidance to compress your time to market.

SPECIALIZED LARGE MOLECULE FOCUS.

In addition to deep cell-based assay expertise, BioAgilytix's scientific team specializes in complex immunoassays and other demanding bioanalytical studies.

QUALITY SCIENCE AND COMPLIANT RESULTS.

To uphold our commitment to superior science, our lab staff is supported by a Quality team with extensive experience working in Quality Assurance and regulated environments.

SERVICES

- ✓ Biomarkers
- ✓ Cell-Based Assays
- ✓ Pharmacokinetics
- ✓ Immunogenicity

PLATFORMS

- ✓ ELISA
- ✓ MSD-ECL
- ✓ Gyros
- ✓ Luminex
- ✓ DELFIA
- ✓ Randox
- ✓ ProteinSimple
- ✓ LI-COR
- ✓ Flow Cytometry

QUALITY

- ✓ Discovery
- ✓ Spirit-of-GLP
- ✓ GLP
- ✓ GCP
- ✓ GMP

Discuss Your Project with Our Scientists Today.

With BioAgilytix working to progress your large molecule innovations, you'll experience the bottom-line business benefits of scientific excellence.
