

Scientific Focus:

## IMMUNOGENICITY & PK

BioAgilytix provides a wide range of immunogenicity and PK services including assay development and validation on multiple platforms and matrices.

Specifically, our antibody services include **labeling of antibody reagents, ADA purification, and oversight of surrogate positive control antibody generation**. Our scientists are experienced in supporting immunogenicity and PK studies in a variety of species including rodents, humans, and non-human primates on ELISA, MSD-ECL, and Gyros platforms.

*Innovate faster with safer, more effective large molecule therapeutics developed through robust assay methods to address even your most challenging requirements.*

### IMMUNOGENICITY EXPERTISE

- ✓ Screening Assays
- ✓ Confirmatory Assays
- ✓ NAb Assays

### PK EXPERTISE

- ✓ Preclinical & Clinical Support
- ✓ Assay Development/Validation
- ✓ Biosimilar & Biobetter Analysis

### *Did You Know?*

BioAgilytix has experience developing **assays requiring high drug tolerance levels**.

# Collaborative, Consultative and Comprehensive Bioanalytical Support.

*Gain the scientific and regulatory expertise to progress your large molecule therapeutics quickly and confidently through the development pipeline.*

## EXPERT SUPPORT FOR EVERY PHASE.

From discovery through Phases I, II, III and IV, BioAgilytix offers comprehensive bioanalytical support for every stage of large molecule drug development – providing expert guidance to compress your time to market.

## SPECIALIZED LARGE MOLECULE FOCUS.

In addition to deep cell-based assay expertise, BioAgilytix's scientific team specializes in complex immunoassays and other demanding bioanalytical studies.

## QUALITY SCIENCE AND COMPLIANT RESULTS.

To uphold our commitment to superior science, our lab staff is supported by a Quality team with extensive experience working in Quality Assurance and regulated environments.

### SERVICES

- ✓ Immunogenicity
- ✓ Pharmacokinetics
- ✓ Biomarkers
- ✓ Cell-Based Assays
- ✓ Critical Reagents
- ✓ ADC Support
- ✓ Biosimilar Support
- ✓ Toxicity Testing

### PLATFORMS

- ✓ ELISA
- ✓ MSD-ECL
- ✓ Gyros
- ✓ Luminex
- ✓ DELFIA
- ✓ Randox
- ✓ Protein Simple
- ✓ LI-COR
- ✓ Flow Cytometry

### QUALITY

- ✓ Discovery
- ✓ Spirit-of-GLP
- ✓ GLP
- ✓ GCP
- ✓ GMP

*Discuss Your Project with Our Scientists Today.*

With BioAgilytix working to progress your large molecule innovations, you'll experience the bottom-line business benefits of scientific excellence.
