

360biolabs® A BIOAGILYTIX COMPANY

Local knowledge, global network

We offer the full spectrum of bio-analytical lab services for small and large molecules in all phases of drug development, with the added benefits that come from conducting your early phase clinical trials in Australia.

Located in Australia, 360biolabs, a BioAgilytix company, is APACs most comprehensive speciality laboratory providing a single laboratory for all of your global clinical trial requirements. We support pharmacokinetic (PK) analysis (biologics, small molecules, peptides and proteins), a diverse range of pharmacodynamic (PD) endpoints (e.g. flow cytometry, biomarkers, molecular assays, ELISPOT, virological endpoints including neutralisation) and central lab services in a quality assured environment (GLP, GCP, ISO / IEC 17025).

Our global CRO lab services support all bioanalytical needs from discovery to pre-clinical and clinical development, manufacturing, and post-marketing surveillance under non-GLP, spirit-of-GLP, GLP, GCP or GMP.

BioAgilytix also offers diagnostic testing services at its CLIA-certified, CAP-accredited Boston laboratory. With have advanced laboratories in Durham, Boston, San Diego, Hamburg, Germany and can support all global studies through every phase of development.

Our team of highly experienced scientific and QA professionals ensures high-quality science, data integrity and regulatory compliance through all phases of clinical development. BioAgilytix is a trusted partner to many top global pharmaceutical and biotech companies. Our relentless dedication to accuracy, timeliness and regulatory rigor enables your therapeutic innovations to reach patients faster.
